

CCGC announces two more field trips to Flint Hill in Fremont County to close out the collecting season. As a bonus, we will be stopping at a road cut to collect copper, malachite, and azurite. **The dates and times for these field trips will be 10/19/2021 8:00 to noon and 10/23/2021 from 8:00 to noon.** The meeting point will be the parking lot for the Cotopaxi Schools Football Field located not far from the intersection of Hwy 50 and Co 12 right across Hwy 50 from the Cotopaxi Store in Downtown Cotopaxi. The school is around the corner from the post office, you can't miss it. You can collect chert, dolomite quartzite and leaf and coral fossils at Flint Hill. As a bonus, there are piles of chert chips where Native Americans made chert tools. **To sign up for these field trips please contact the field trip leader Greg Sharp at harleyguitar9@gmail.com by 10/18/2021 or 10/22/2021.**

This event is fine for all cars. This event will be at nearly 10000' but the area is fairly flat and the collecting is near the parking area. Dogs on leash are welcome. You must be a member of the CCGC to participate in this event. You must sign in and agree to follow CCGC Rules and the RMFMS Code of Ethics.
