

CANON CITY GEOLOGY CLUB

DECEMBER 8, 2014

Attendance: there were approximately 60 people at the meeting.

The Christmas meeting of the Canon City Geology Club was called to order by President Jennifer Gerring at 6:10 pm.

Jennifer told those present that she still had a few tee shirts for sale and that she would be ordering again after the first of the year.

A list of proposed field trips for 2015 was handed out and Jennifer will be sending this list to the membership in an email in the next few weeks.

Jim Meacham gave a report on the New Hope Mine Claim. A great deal of work has been done but there is still a lot to do. He did let the members know that the seed is in to reseed the parking area at the mine. Also, the sawdust is there to spread after the seed is put down. A workday was tentatively planned for December 12, 2014.

There being no further business, Daniel and Cynthia Nichols began a short talk on cleaning specimens. This was interrupted by the Christmas Dinner, which was enjoyed by everyone, and then began again after the dinner was completed. Daniel gave a lot of very helpful information on cleaning and stabilizing specimens. He also had a handout on ways to clean them. A question and answer period followed the talk.

Next was the "Wrap A Gift" exchange, which everyone really seemed to enjoy. It was a great way to end the year.

The gathering adjourned at 8:15 pm.

Respectfully submitted,

Kathy West
Recording Secretary
