Historian - Lula Moody

Pebble Pubs -Phil Pugin

IMPORTANT NOTICE: In preparing the budget for 2016, our treasurer, Pat Nelson, realized that after paying for each member's insurance (including every child in the family membership), we are needing to increase our membership dues for next year. We sincerely hope this will not prevent people from renewing or joining the club. The dues will increase by \$5 for each type of membership, and will now be \$20 for an individual and \$25 for a family membership.

As a special incentive for new and current members, we will accept the old rate through (postmarked) December 31, 2015. Please take advantage of this when you attend the Christmas meeting on December 14th. Those members who paid dues after October 1st and through December 31, 2015 are being allowed the old rate.

Christmas present idea: If you put one book on your stocking stuffer holiday list consider Keith Heyer Meldahl's "Rough-Hewn Land: A Geologic Journey from California to the Rocky Mountains," U. California Press, 2011.

Our website: CanonCityGeologyClub.com has won 8th place in the American Federation of Mineralogical Society website contest!

We've more than doubled in membership, had great programs and field trip in 2015. We are already planning programs, classes and field trips, and looking forward to a great new year in 2016.

Happy Holidays!
Jennifer Gerring
CCGC President & CCGC Board
